Brian,

We spoke a couple of weeks ago about the request for a no further action (NFA) letter for the Barge Dock Facility at the Falcon Refinery in Ingleside, Texas. By obtaining a letter indicating NFA for that site Lazarus will be able to obtain funding to improve the entire site.

During our call you mentioned that you were close to preparing some sort of letter that would indicate that since there was minimal to no risk at the barge dock area that the area should be removed from the superfund site.

Please provide an update.
